

Meeting Notice

This month's meeting will be held at a new location, Diablo Chapter, American Red Cross, 1300 Alberta Way, Concord CA (across from Clayton Valley High School). We will meet on November 16th at 8:00 PM.

Guest Speaker

Emily Decker, Chapter Manager,
Diablo Chapter, American Red Cross.

Election of Club Officers

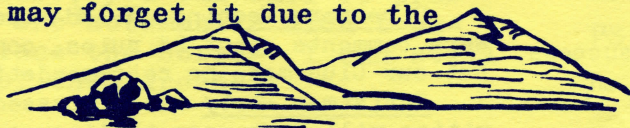

A ballot is enclosed. This ballot should be brought to the general meeting on November 16th or mailed in time to reach the Club's PO box on this same date. Club's mailing address PO Box 23222, Pleasant Hill, 94532.

Christmas Party

The party will be on Sunday, December 16th, at 6:30 PM at the Pleasant Hill Recreation Center. A reservation form is enclosed with more details.

Photographs for 1980 Club Roster

About 100 pictures have been taken to date. Persons not able to be at the next meeting to have pictures taken should mail a black and white photo of about 2½ by 2½ inches to the club PO box (see Election Notice above). Deadline is early in January, so don't put this off, or you may forget it due to the holidays.

Next Board Meeting at QTH of Dick Webster, at 8:00 PM on November 19

MDARC BUSINESS MEETING OCT. 19, 1979

The meeting was called to order by Pres. Hank Herting W6AMH at 8:10 p.m. at the Contra Costa County Water District Auditorium.

Visitors were introduced, with applause.

The motion passed: Minutes as printed in the CARRIER be approved.

Thank-you correspondence was read. A letter from College Park High School was read, urging us to leave rooms in the "J" building in the same condition as they are found.

A Simulated Emergency Test report was given by Dwayne Eskridge W6LKE, thanking all participants, but there were not enough volunteers. Thirty-seven different organizations took part in this exercise.

The W6LGW Memorial Station at the Red Cross building has been activated. Doug Smith WA6GON reported that the memorial plaques have been hung. Frames for certificates are needed. A battery condition indicator is needed. More tools are needed. Some earthquake traffic was handled and the Red Cross is pleased with our performance. Feel free to make suggestions. Many MDARC jackets are being ordered.

RACES plans were announced by Ron Miller WB6JGV. There are 40 RACES members now and more applications are coming in. Education for disaster preparation is planned.

The ARRL Director's Meeting at the Holiday Inn was announced.

Education Chairman Bob Bruder KA6Q emphasized the importance of proper disposition of cigarette butts. THE BASE STATION donated about \$55 for books.

Roster Pictures are being taken by George Roush WB6OFH in an efficient manner. Donations to the Club (possibly for advertisements in the Roster) are coming in and no increase in dues is anticipated.

The Flea Market of Sept. 22 was a success and a flea market may be combined with an auction next time.

The Nominating Committee (VE2AQV, W6AMH, KA6BPN) presented the following names:

Pres.: Chuck Welch WA6MWU & Larry Kaye W6CPO
V.P.: Ted Durst W6PFW & Stan Bringer WB6IRZ
Treas.: Hal Mumford W6CU & Bob Moore W6GZC
Sec.: Judy Stewart KA6AHO & Mac King WB6EKR
E.C.: Dwayne Eskridge W6LKE & Joe Deas K6VLH
Board Member: Paul Taylor WA6TXM, Doug Smith WA6GON, and Russ Wood KA6BPN. After each office was considered separately, there were no new nominations from the floor, and the motion passed that the nominations be closed.

Adjournment was at 8:58 p.m.

Hal Mumford W6CU
Secretary Pro Tem

MDARC BOARD MEETING OF OCT. 22, 1979

QTH: W6AMH. Present: W6LKE, K6IMV, W6CU, WA6TXM, W6PFW, WA6MWU, K6XC, WB6OFH, WA6JLF, W6AMH, & WD6APL (who had to leave abt. 9:30).

Pres. Hank Herting W6AMH called the meeting to order at 8:11 p.m. Refreshments were available throughout the evening.

Motion passed: Board minutes of Sept. 22 as printed in the CARRIER be approved.

Motion passed that we renew HR REPORT and have it go to P. O. Box 23222.

Motion passed that a BASE STATION bill (education supplies) be paid.

Finances: WA6OJT absent but said Oct. 19 we had \$448.32 in checking & \$725.39 savings.

The Red Cross Bus that has been offered for our use without upkeep responsibility by us (\$200 work should be done on it) was discussed. Safety, liability, public service, emergency communications, Red Cross communications, equipment installation, qualified drivers, insurance, etc. aspects were discussed and then the following two motions by Joe Campbell were acted upon:

Motion passed that we do not operate this bus until we have a written agreement between the Club and the Red Cross pertaining to insurance, responsibilities, etc.

Motion passed that we do not operate the bus until the Club adopt a written procedure for operation by qualified members.

SET: W6LKE reported there will be a meeting Wednesday of the 37 agencies connected with the recent emergency test.

Motion passed that we pay a bill for a silk screen stencil.

Prizes: K6XC stated \$140.42 is in kitty. Christmas Party finances were discussed.

Roster Pictures: WB6OFH stated over 60 pictures have been taken. CARRIER publicity is needed.

Directors Meeting: W6AMH reported there were comments about DX rules, contests, etc. but our Club made no recommendations.

Christmas Party was discussed and a committee will meet soon to discuss installation of officers, Santa Claus, gifts, food, program, money, etc.

Motion passed that we recommend to the membership that \$350 from the treasury be authorized for Christmas Party purposes.

Old Business: W6LKE reported that the \$247 W6LGW money donated to the Red Cross was spent for communication purposes in an appropriate manner. The antenna donated by Gabe Vincent cannot be used by the Red Cross.

Adjournment was at 11:25 p.m.

Hal Mumford W6CU
Acting Secretary

Letters to The Editor

A LETTER OF PROTEST

Dear Mr. Young

Please excuse my typing since my hands shake badly due to a Parkinsons disease affliction.

My reason for writing is to protest the speed increase of amateur RTTY. You see, I am an old CW (A1 to you) but no longer able to operate due to the shakes.

The Senion Citizens' League recommended that I take up a hobby to occupy my mind. Dancing was out of the question unless the beat was in sync with my shakes. (I found a record once that synced in on a sub harmonic but the physical exertion put me in bed for ten days. Other hobbies have ended up the same way in disaster.

However in my efforts do discover a hobby, I found that I could copy 60 w. p. m. RTTY in my head and it was in perfect sync with my shakes. The up-shift and down-shift were quite exhausting until I converted the jumping off my chair and re-sitting to a nod of the head. It works beautifully and I have spent many pleasant hours reading the news (60 w.p.m. press) and listening to the ham bands.

I have checked with my doctor to see if there is any drug available that could increase the speed of my sync. Some of the drugs have possibilities but they are not legal and that is another story. To date I have only been able to sync in on 60 w.p.m. stations.

I implore you to maintain at least a few 60 w.p.m. stations for old timers like me. Sure, you can call it progress, but the automobile didn't entirely replace the horse-- I can still see a few of them around.

Yours faithfully,

A. S. Shaker

P.S. Developed a reperf system by installing punches on my teeth. But the added weight caused my uppers to keep falling out and the tape almost choked me so I had to give that up.

(From "Amateur Radio" Journal of Wireless Institute of Australia via ARNS)

Lots of people have a chip on their shoulders -- their head. (ARNS)

EMERGENCY

How can you help?
How can you prepare?
How can you plan?

All these questions will be answered by Dwayne Eskridge and his staff on Tuesday, November 20, at the College Park High School at 6:30 PM.

Regular students and all members are invited. Plan to be there.

Bob Bruder, KA6Q
Education Committee Ch.

(Sparks Journal vol 4 no 2)

The President's Corner

Next month this corner will have a new occupant. There are a few things that still need cleaning up, but nothing that can't be handled by either of the quality choices we have. I'm inclined to believe we have better choices to lead our Club than those that have so far surfaced to seek the top office of our Country.

Would you believe, Christmas is almost upon us? Time for the merchants of the land to raise all prices twenty percent. No discounts til December 26th. I'm certain you've noticed the inundation of TV by ads for kids toys.

With Christmas comes the last Club social event of the year. The date is December 16th, time 6:30 PM, the place Pleasant Hill Recreation Center. Santa has promised to be in attendance, there will be entertainment for all ages, we will have a formal installation of our officers for 1980, and other surprises.

Come one, come all, this event is primarily for the kids, so if each of you will bring a gift, one per each child who accompanies you, Santa will have sufficient for all the happy faces. Please try to bring a gift acceptable to both boys and girls. If the gift is for one or the other please mark boy or girl on wrapping. A few extra would be appreciated.

The dinner will be pot-luck, much the same as last year. Each family bring a main dish in sufficient amount to feed itself and possibly six additional.

The Club will furnish salad, dessert, coffee and punch. Also, will provide paper plates, utensils and serving spoons and forks.

Ron has promised sufficient door prizes to keep us on the edge of our seats.

You all come, you hear, and have a good time.

I went to the ARRL Pacific Division Director's meeting a few Saturdays back. It was more interesting than I expected and I was pleased I attended.

Dwayne, W6LKE, was there, each of us was wearing his MDARC jacket, which drew a number of compliments. There were also numerous complimentary remarks directed at the Carrier. Saw a lot of old friends from other areas and generally had a good time.

The business meeting was largely taken up by requests from DXers and Contesters. I have been promised a copy of the minutes and upon receipt it will be made available to all interested parties.

Due to comments made at the meeting, and more so at the luncheon, I feel compelled to recommend all ARRL members return the incumbent Bill Stevens, W6ZM to the office of Pacific Division Director.

I lost a very good friend recently, and Ham Radio lost a fine Amateur. He was not a member of our Club, but many of you knew him through contact with the HRO store in Oakland----- Bud WA6HYN was the jolly round one. He recently fell to cancer as his wife did a few months ago. May you both have found peace and tranquility in that ultimate DX land in the sky.

HANK-----W6AMH

Lame Duck

MDARC 1979
Annual Christmas Dinner
Sun. Dec. 16th
Pleasant Hill Recreation Center
Doors Open : 6:30pm, Dinner 7:15pm.

1980 Membership Directory

Pictures for the Membership Directory will be taken again at the November meeting. If you have not had your picture taken, be sure to come early on November 16th and do so.

For those of you who cannot have your picture taken at a meeting, please mail us a black and white photo of yourself. This picture should be about $2\frac{1}{2} \times 3\frac{1}{4}$ inches or thereabouts. This picture should reach us no later than 1-15-80.

The November and January meetings will be the last opportunity you will have to have your pictures taken at club meetings. Pictures will not be taken in December because of the Christmas Party.

Mail your photos to:

Tom Vanstavern from the Federal Communications Commission spoke in detail about FCC monitoring procedures at the October meeting. His discussion began with a slide presentation, followed by a question and answer period. This in turn, was followed by a demonstration of the FCC Monitoring Van.

Many thanks Tom for the very interesting and enjoyable presentation.

Asst. E.C. Doug Smith, WA6GON

MDARC members have all seen or heard about the ever increasing number of amateur radio public service projects in Contra Costa. Perhaps more OMs and YLs have participated than ever before.

I hope to make an accurate account of these projects and see them every month in "The Carrier." The EC and Asst. ECs will be feeding in news and information on a regular basis to keep you informed. I'd also like reports from individual members regarding emergency traffic handled. In particular, accident reports, routine road assistance, low band relays, calls for police, ambulance, fire and other public agencies. Please provide day, time, who, what, why, when and where. Even if you don't hear it happen, let the Carrier know.

Walk for JJ. On October 14, Warren Sturgeon, WA6QAZ, organized a group of communicators to serve the organizers of the Walk for J.J. Young Jerry Riggsbee Jr. and his sister fell into a swimming pool in July of this year. Herry's sister drowned in the accident. JJ himself, has been in a coma since being pulled from the pool. The walk was held to raise money for JJ's \$200 plus per day medical costs. Amateurs that participated with Warren were: Fred, WA6JLF; John, WA6UMT; and Larry, WB6LMI. Thanks to all.

Hospital Representatives. Dwayne, W6LKE, advises that the following amateurs volunteered to serve as hospital representatives for the following hospitals: John Muir, WA6HAM, W6CPO: County, Veterans and Kaiser Martinez, WD6DTN; Kaiser W. C., W6KLM; Brookside, Drs. Hospital, Richmond, and Kaiser hospitals in the west county were all contacted by Dave Tyler of the East Bay Radio Club. Pittsburg Community Hospital still needs an assignment.

These amateurs surveyed the hospitals using a special form provided by Asst. EC, RACES, Ron Miller, WB6JGV. We now know which hospitals have antennas installed, where the coax ends, and who to contact by the first response operator. Future hospital activity includes making first response team assignments.

Weekly Meetings. Amateurs interested in RACES, ARES, and emergency communications have been meeting weekly (Saturday 10 AM) to help organize a viable amateur radio service response team for Contra Costa County. A great deal of planning is in the works. The EC has created a Frequency

Research Committee, a Net Committee, asked N6BRW to come up with a sample RACES patch design, Telephone Tree Committee and others.

Not everyone has been able to make each meeting, myself included. I applaud those who have made each one and who have volunteered to serve on a committee. Those of you who haven't made a meeting, PLEASE COME! The faster we have a working organization the quicker Dwayne's life will return to normal. (Instead of 10 meetings a week, only nine)

Interesting listening. Given the proper band conditions exist and the ether is behaving, all Bay Area ECs meet each Saturday morning at 8 AM on 3980 KHZ. Net control is Chuck Breeding W6UWR. Check in lowbanders!

Identification. Some of you already have identification cards as members of the RACES group in Contra Costa County. Ron has cards for everyone that signed up as far as I know. Since we are operating as volunteer "public employees" it is necessary that we sign a loyalty oath and have our fingerprints taken. This must be done prior to receiving RACES ID.

ARES ID is slow in coming from the ARRL. Dwayne received only a small portion of his order last month. When he has what he needs the cards will be passed out at a Saturday meeting or at the monthly MDARC meeting.

Red Cross Identification will be issued also to those of our first response team who expect to be working in a Red Cross function. Red Cross volunteers sign a loyalty oath like county employees. Signing this oath for RACES and RED CROSS qualifies you for Workmans Compensation Insurance should you be injured while serving as a volunteer.

Memorial Station. MDARC volunteers have recorded 203 man hours building W6GLW. It's hard to believe that there are still more things to do. LGW needs a tool box with tools, so hams don't have to bring their own. If you have an extra tool of some kind bring it with you to the November meeting. I would like to thank Dick, KA6ECK, for making the frames that go around the celestex bulletin boards in the station. Super job!

Emergency Preparedness Night. Tuesday night, November 20, is the first annual EPN! Class night at the College Park High School. The session will be devoted to a discussion of emergency communications and amateur participation in emergency situations. Dwayne,

W6LKE will lead the discussion.

Public Service Diary. Tuesday evening, October 30, WA6GON spoke directly with the Pleasant Hill police dispatcher via the WA6WVH autopatch, to report an injury auto accident. Thanks to Scott, WB6PQM for his prompt handling of the autopatch.

Thursday evening, November 1, WB6UMT, John, directed a QST on the NTS VHF session which consisted of a letter of thanks from the father of a young soldier in Korea. The father and mother were glad to receive news that their son was safe. John's message to every amateur that traffic handling is appreciated. John suggested that this thank you made up for many of those forgotten.

Saturday afternoon, November 2, W6LKE reported a non-injury auto accident via the WA6WVH autopatch.

More on Memorial Station. W6LGW operated for the first time on the October 13 SET under the watchful eyes of Harry, W6RVC, station trustee. Clay, WD6GDG, had the honor of making the first call using W6LGW on 220 MHz in QSO with W6LKE County OES. Vern, K6UGSm and Dick, WA6YXY, operated the two meter installations. Yours truly acted as a runner between Red Cross staff and the radio room. Harry operated the Red Cross radio on 47. Mhz.

LGW contacted three other Red Cross Chapters directing messages to the directors of all three, and handled messages to and from OES.

LGW operators never communicated with the several Red Cross shelters activated because there simply were not enough hams to go around. W6LKE indicated over 44 hams participated and we still were short of operators. The Red Cross was still very appreciative.

See you at the disaster,
Doug Smith, WA6GON
Asst EC Red Cross

* * * * *

The body of every organization has FOUR BONES: There are the "WISH BONES" who wish someone else would do all the work; there are the "JAW BONES" who oo all the talking but very little else; teere are the "KNUCKLE BONES" who knock everything that anyone tries to do; and finally there are BACK BONES who get under the load and do all the work. Which part of the body are you, MDARC member?

(J. C. Penney Store Newsletter...)

SOME BRIEF MISCELLANEOUS FACTS ABOUT F. D.

By Hal Mumford, Trustee for W6CX

1. Somewhere along the chain of events, our 1979 Field Day report did not get into QST although it was assuredly mailed.

2. Fifty-seven percent of our 1979 F.D. operators did not operate on our 1978 F.D.

3. Power per rig was 10 watts (battery) and our 1979 score was the highest of any W6CX F.D. score in our history. Also, 1975 and 1978 were the only years in which we made more contacts (generator & 200 watts).

4. If our report had not gone astray, we would have been listed on page 101 of the October QST as the highest scoring sixth district contestant that had 7 xmtrs.

5. When we calculate our score in the prescribed manner, we find that, compared to the 1604 listed contestants, we are number 10 in the nation, with a score of 12,545. Of the 86 listed battery operated contestants, we would be number 4.

6. Ten percent of our contacts were on CW. If 45% of our 2135 contacts had been on CW or if the number of 1979 contacts had been like our 1978 contacts (2800), our score this year would have been the highest in the nation.

Band	FH	CW	Total Contacts	Log Legibility Ratings (as submitted)
80	82	0	82	A

Members are welcome and invited to scrutinize the W6CX Field Day log, which will be in my possession for one year.

Station of the Month - W6AMH

Hank was originally licensed in 1946. Hank's call lends itself extremely well to phonetics. The phonetics that Hank's wife prefers is America's Handsome Ham. Hank, on the other hand, prefers another which fortunately or unfortunately, depending upon your point of view, is unprintable.

His first love in amateur equipment is pictured below. He will not admit to ever owning the DeForest Audion Detector though.

De Forest Audion Detectors

Type R.J.9.

His present equipment is somewhat modern. In the picture below, I recognize the receiver which Hank is running as a Collins 75A-4.

Hank is on practically all the MF bands, and is also on 2 Meters and 220 MHz. He can usually be found on the VHF bands during the evenings. If you listen on these bands, you may learn some of the other phonetics for his call.

Bob, KC6F
